

# SAVE THE DATE

## Skills Meetup Sweden 2023

**How can we solve labour market skills shortages?  
How do we build a resilient infrastructure for lifelong learning?  
What needs to be done to strengthen both working life and individuals,  
for increased competitiveness?**

Welcome to a meetup that provides opportunities for exchanging experience, networking and mutual learning about current issues for efficient skills supply. The focus will be on qualifications and NQFs, micro credentials, vocational education and training, and the validation of prior learning in both education and working life. Good practices from Sweden, the Nordic countries and other EU member states will be presented.

The international part of the three-day event opens in the afternoon of Thursday 20 April and continues through Friday 21 April. The working language will be English.

The meetup is hosted by the Swedish National Agency for Higher Vocational Education (Myndigheten för yrkeshögskolan, MYH) and the EU-funded projects NOVA-Nordic, BOSS and SeQF 3.0 as well as the project Kompetenspasset.

More information and registration will be available in early 2023. The meetup will be held in Malmö, with the possibility to follow parts of the agenda digitally.

**19-21 April**

**Malmö**
